GETTING STARTED

Pre - Seasoned Cast Iron Cookware

BEFORE FIRST USE:

- (1) Clean The Product With Nylon Brush & Hot Water.
- (2) Dry It With Clean Cloth.
- (3) Apply Oil Generously On Working Surface.
- (4) Heat It With Low Flame Till It Smokes.
- (5) Switch Off The Stove And Allow To Cool.
- (6) Now You Are Good To Go.

CLEANING AND CARE

After Use, We Recommend A Light Wash With Warm Water To Clean Your Cookware. If Food Remnants Are Stubborn, A Soft Scrape With A Metal Spatula, Or A Touch Of Dish Soap And A Nylon Scouring Pad Will Work. Avoid Heavy-pressure Scrubbing.

It Is Important To Thoroughly Dry Your Cookware After Each Use. Then Apply A Thin Layer Of Cooking Oil And Apply Low Heat On The Stove Or In The Oven For A Few Minutes To Ensure It Is Dry. Don't Put In The Dishwater Or Soak In Water.

EXPERT TIP

Pre - Seasoned Cast Iron Cookware

- 💡 If Anything Is Sticking To The Product, Do Not Use Steel Scrubber. Always Use Plastic Or Coconut Fibre.
- 💡 Never Wash In Dishwasher.
- 💡 Store In Cool, Dry Place If You Have Cover Or Lid, For Your Utensil, Place A Folded Paper Towel In Between Lid And Utensil Allowing Air To Circulate.
- 💡 After Use Apply Edible Oil And Store The Product To Prevent It From Rust

BENEFITS OF USING CAST-IRON COOKWARE:

- ▶ Cast Iron cookware boasts exceptional heat conduction, ensuring a swift and uniform heating process
- ▶ From a health perspective, utilizing iron utensils for cooking is beneficial.
- ▶ Iron cookware possesses the unique capability to impart iron into your food during the cooking process
- ▶ No Use Of Synthetic Coating And Chemicals

Suitable For All Type Cooktops
